Agencies' functions:

- Technical assistance.
- Promotion of Rational Use of Energy and development of Renewable Energy Sources in their regions.

- Activities for dissemination and public awareness on energy issues.
- Integration of the regional energy actions in the EU framework.
- Some of the activities are:
 - Organization of events related with energy: congress, workshops, courses, conferences...
 - Publication of guides, books, brochures... of RES, RUE, EE and Energy Saving.
 - Collaboration with the regional and local governments:
 - Implementing the Energy Plan of the regional government in the region.
 - Training on energy issues for professionals, students, citizens...
 - Organizing campaigns for the promotion and dissemination of RUE and RES.
 - Collaboration with the national energy agency of each country.
 - The Regional Energy Agency of Madrid is also in charge of the coordination of the consortium of the project:
 - To work together to develop the agencies and to report to the EC.
 - e.g.: Interchange of best practices
